Alzheimer's Disease Risk Screening p-Tau217 Biomarker

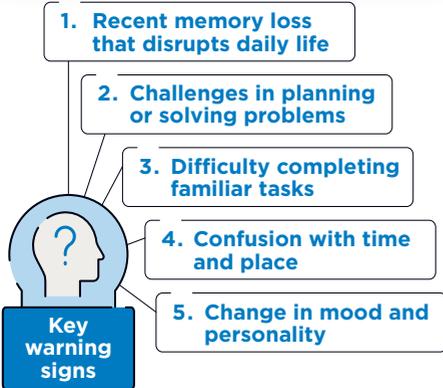

We accept Health Care Voucher

Please inform our clinic staff of the use of Health Care Voucher

Early Detection for Better Health

- In Hong Kong, about **one in ten elders aged 60 or above is living with dementia**
- Alzheimer's disease (AD) is the most common type of dementia among older adults
- **The older you get, the higher the risk.** By properly managing common risk factors, nearly half of all dementia cases could be prevented

Terms and Conditions apply | Any medical or healthcare information provided above is for reference only.
